Direct Email Feedback	"Thank you for your tutoring this semester. It was very extremely helpful. You helped me to understand this new language of statistics better than the book and the class. Honestly, I don't think I would have gotten this far without your insights and knowledge...Thanks again!!!"
Direct Email Feedback	"Thank you! I appreciate your help. You were very helpful."
Direct Email Feedback	"Just saying thank you very much for your kind help with my Statistics learning. I got a grade A and I am very happy with the result. It was due to your kind help and teaching. I am grateful to you. I was very nervous about it, but [statistics] turned out to be my favorite subject now. I am learning all over again since I want to have a crystal clear understanding of the subject. Once again thank you so much."
Direct Email Feedback	"I am learning more about Statistics now after I got good marks. It gave me great inspiration and I like the subject very much."
Direct Email Feedback	"I just wanted to thank you for helping me with my assignments for [my] class. I got a B as my grade for the class and I wouldn't have earned it without your help. I really appreciate it. Have a nice summer. "
Forwarded Email Feedback	"Matthew was great!"
Forwarded Email Feedback	"I was able to attend the workshop on Surveys this past Saturday and it was very informative and helpful. Matthew did an amazing job presenting. Glad I was able to take advantage of this session."
Forwarded Email Feedback	"Matthew was very knowledgeable and helpful. I would recommend him to anyone involved in QR research."
Anonymous Survey Comment	"I want the other students to know that my experience at SLU [Learning] Hub is always exceptional, Matthew is very knowledgeable and we have been working together the entire semester. I have learned a lot from Matthew and I am grateful for Matthew's dedication."
Anonymous Survey Comment	"The meeting with Matthew was very helpful and informative. He was very knowledgeable regarding the subject matter. He also reinforced techniques that were taught in class."
Anonymous Survey Comment	"This was a very productive session that gave me insight into how to code and analyze Data input into Dedoose and coding it."
Anonymous Survey Comment	"This [workshop was] an eye-opener and detailed way of knowing the best approach to Quantitative reasoning."
Anonymous Survey Comment	"[Matthew] is a great resource for students that need help with their class assignments and final project. And also students that need that extra boost."
Anonymous Survey Comment	"[Matthew's] as good as advertised."
